PROFILE

Highly accomplished Licensed Physician and Health Care Administrator offering 20+ years of dedicated service delivering state-of-the-art medical care to health care consumers at various international locations. Areas of clinical expertise include anesthesiology, critical care, family medicine, and transfusion medicine. Recognized as a pioneer in transforming health care through development of new business models for medical practices, launch of new health care programs and service lines, and serving as a consultant on capital improvement projects for health care organizations.

Forward-Thinking Leader with successful career as a retired Colonel in the Austrian Army serving in various key leadership roles directing clinical operations within dynamic health care settings worldwide. Effective in matrix-managing cross-functional interdisciplinary teams that collaborate as a focused unit to achieve ambitious goals in patient care. Keen understanding of industry trends and implementation of new technologies to meet the needs of diverse patient populations.

Significant International Relations experience in the development and launch of new organizations focused on supporting human rights, providing international relief, influencing key decision makers in politics, and making a positive difference in the lives of others. Multilingual and extensive experience working with individuals from culturally diverse backgrounds.

Internationally recognized Key Opinion Leader with several publications in peer-reviewed publications on cutting-edge medicine and served as consultant for government agencies and high-profile international organizations. Valuable clinical resource for training and mentoring health care providers. Foster an environment of high-morale, peak efficiency, and team orientation.

CLINICAL EXPERIENCE

Zakel Healthcare - 6/16 – Present

Managing Director and Owner

I founded this boutique healthcare company in 2016, which specializes in niche markets. We are just the right size for clients who are not willing to pay big companies for big company solutions big money. Me and my team of international experts, specialists and operators are at your service 24/7. We strive to solve problems others can't.

TUI Cruises, Hamburg, Germany, 11/16 – 6/17

Ship Doctor

Serves as Anesthesiologist and Emergency Care Physician in the emergency ward on board of cruise ships. Is responsible for the basic and emergency medical treatment of the passengers and the crew members. Deals with a wide range of medical conditions - evaluation and treatment of medical, surgical, gynaecological and paediatric problems; suturing of wounds; incision and drainage of abscesses; evaluation of ophthalmologic emergencies; reduction of simple dislocations, splinting and immobilization procedures; Advanced Cardiac Life Support procedures and treatments (ACLS, ATLS, PALS, PHTLS) including

emergency airway management; administration of thrombolytic agents and other life saving interventions.

International SOS, Port Moresby, Papua New Guinea, 10/15 – 8/16

Anesthesiologist & Emergency Care Physician

Served as Anesthesiologist and Emergency Care Physician as well as specialist for Transfusion Medicine for ISOS catering to the Australian Federal Police. REFERENCE PORTFOLIO

Michael Zimpfer

MD, MBA, Professor and Chairman, Department of Anesthesiology, General Intensive Care and Pain Control

VIENNA GENERAL HOSPITAL, MEDICAL UNIVERSITY OF

VIENNA

"In summary, Dr. Zakel is a well-trained, skilled, and circumspect anesthesiologist and critical care physician and also a team player who, always with the risk / benefit ratio of the patient in mind, is able to solve medical challenges and problems quickly and reliably. In doing so, he works with extreme dedication and initiative to bring about good results, also in stressful and critical situations."

Gerald Ihra

MD, Professor of Anesthesiology and Intensive Care Medicine

MEDICAL UNIVERSITY OF VIENNA

“I was strongly impressed by Dr. Zakel’s professionalism, his very good technical knowledge, his ability to assess difficult situations immediately and correctly and to find the correct solutions quickly working with extraordinary dedication and personal initiative reliably and precisely at all times. He was integrated into our team very well and showed himself to have excellent people skills, an excellent analytical mind, and valuable communication skills in addition to his broad scientific and medical knowledge.”

Dr. Gregory Weeks

Department Head International Relations

WEBSTER UNIVERSITY VIENNA

Dr. Zakel showed himself to have excellent people skills, an excellent analytical mind, and superb communication skills in addition to a broad scientific and medical knowledge. I firmly believe these skills make him perfectly suited for the job in question.”

Dr. Christopher Lee

FIFA U-17 World Cup Chief Medical Coordinator

INTERNATIONAL SOS

“I worked with him during the FIFA Under-17 World Cup Tournament in November 2009, when it was held in Nigeria. Dieter was part of my team of doctors who worked as ‘clinic lead’ in one of the several bespoke intensive care clinics set-up in the cities in which the matches were being played. ... Being as we were in a developing country, there were inevitable problems (more or less on a daily basis!), yet Dieter was able to deal with all of them effortlessly. He had the knack of motivating his team to undertake all the challenging tasks that were put to them. He was the Head Doctor on site.”

Henry E. Wilkins

U.S. DEPARTMENT OF STATE

“The United States Department of State extends its warmest regards to you for the medical assistance and care you have so generously extended to the U.S. Police Officers serving in the United Nations Police Training Mission in Kosovo. You are a credit to the medical profession and to Austria.”

Claudius Bubner

Brigadier General, Deputy Austrian Military Representative

AUSTRIAN DELEGATION TO NATO

“...Colonel Dr. Zakel gained a broad and international reputation as an approved and greatly demanded professional surgeon in a rewarding military environment, as army doctors had to face challenging times in an era of heavy commitments.he can communicate and react well to other people and different cultural backgrounds in a friendly and open manner.”

Major R. Carewicz

Force Medical Officer

UNITED NATIONS

“Particularly I am very grateful for your attitude to HQ personnel, for your support in HQ medical stand-by duties and for your participation in medical aid given to local Syrian people.”
